

GREATER DALLAS CHAMBER

A regional business alliance

April 26, 2005

DOCKET FILE COPY ORIGINAL

Ms. Marlene H. Dortch, Secretary
Federal Communications Commission
Office of the Secretary
9300 East Hampton Drive
Capitol Heights, MD 20743

Regarding: WC Docket No. 05-65; SBC Communications, Inc. and AT&T Corp.
Applications for Approval of Transfer of Control

Dear Ms. Dortch:

The Greater Dallas Chamber of Commerce supports the agreement of SBC to acquire AT&T. The Chamber believes that this acquisition, combining the strengths of these two companies, would allow for a global reach yet unseen.

The transaction combines SBC's extraordinary local exchange, broadband and wireless solutions with AT&T's global systems capabilities, business and government customers and fast-growing Internet protocol (IP)-based business. We believe that both companies have common values on customer service, innovation and reliability.

The Greater Dallas Chamber of Commerce believes that the combined company will have high-quality network assets, both in the United States and around the globe, and complementary expertise and capabilities. The resources and skill sets to innovate and more quickly deliver to customers the most advanced, integrated IP-based wireline and wireless communications services will be readily available.

Thank you for accepting the Greater Dallas Chamber's letter of support for this merger and our members urge your expeditious consideration and approval of SBC and AT&T merger.

Sincerely,

Jan Hart Black
President
